EDUCATION

Applied Information Technology B.S. [Expected May 2018]
Concentration in Web Development and Multimedia [GPA: 3.87]

George Mason University

EXPERIENCE

Web Developer - ITFederal, LLC [May 2017 - Present]
- Create website layout/user interfaces based on responsive web design practices
- Write efficient HTML and CSS code to develop websites as intended by the design
- Maintain websites once completed and continue to develop new features to add to the functionality of the site
- Research and remain current on emerging Web Development and Design trends and apply them to operations and activities

President - Patriot Activities Council [April 2016 - Present]
- Research the George Mason student body to create methods and ideas to engage students in events and programs
- Developed a brand identity for the Patriot Activities Council
- Advise 9 executive board members and work in a team to brainstorm, create, and execute over 20 events a semester

VP of Publicity – Patriot Activities Council [April 2016 - January 2017]
- Update social media sites with regular content (Facebook, Twitter, Instagram, Snapchat)
- Create original content for distribution to students

PROJECTS

Redesign of ITFederal Website

Redesigned the ITFederal website for the modern world. Utilized Sketch to design the site. Site created with HTML5, CSS3, Bootstrap, and various other techniques.
